Press Release

Historic Pen Company to repurpose Independence Hall Witness Wood®

Philadelphia, PA, June 30, 2015: The **Historic Pen Company** and **HistoryPens.com, LLC** are proud to announce the recent acquisition of the only documented original construction wood ever removed from the Birthplace of America, **Independence Hall**.

Committed to creating *Made in the USA* historic heirloom quality works of art and function, *HistoryPens.com, LLC* has committed to utilize its design and artisan capabilities in the creation of fine quality heirloom writing instruments made from pieces of our historic past by salvaging and repurposing small pieces of **Witness Wood®** from historic and cultural sites, buildings, vessels and items that would normally be discarded and lost to history.

The United States boasts one of the richest and most important historical traditions of any nation in the world. As the birthplace of freedom and democracy, America is home to many unique historical sites that continue to have a special place in the hearts of Americans today. Sites like **Independence Hall** have a hallowed significance in our history, but like all structures, they must undergo periodic maintenance and rehabilitation. When this occurs, much of the original materials are discarded without regard to their historic value.

The *Historic Pen Company* was founded to repurpose these materials into lasting heirlooms and collectibles that can be handed down generation after generation with the respect and veneration they deserve.

The *Historic Pen Company* recently acquired the only documented wood ever removed from **Independence Hall**. This amazing *Witness Wood®*, removed during the 1898 restoration and renovation of **Independence Hall** will be fashioned into numbered Limited Edition fine writing instruments and cufflinks and made available to the public.

These handcrafted limited edition collections will be created using precious and semi-precious materials including: silver, pewter, rhodium, brass, 18K gold and more to feature original construction pieces of **Independence Hall** *Witness Wood®* that once felt the footsteps and touch of George Washington, Benjamin Franklin, Thomas Jefferson and John Adams among others.

For Release [Time, AM/PM Time Zone, Date]
